Day 1 Questionnaire

Java Programming Brush Up Tutorials

Hello All,

I request you guys to go ahead and write the answers for the following questions and submit the same in the following google forms.

This is for your practice purpose only, and whatever we are discussing each other in the session make sure go through the respective websites to learn more about the things whatever we discuss in the session. The websites like Geeksforgeeks, w3 schools, Java point, and so on.

After doing the paperwork make sure to submit the same in the following form link:

https://forms.gle/5PXXv9TZTCuuYJiM9

Questions:

1) What is algorithm and flowchart? (in your own words)
2) What are JDK, JRE and JVM? Why are these useful for java?
3) Mention different platforms to write java programs?
4) Download JDK from the day1 pdf and copy and paste the code in text document and save with the name HelloWorld.java and run the same in your command prompt (by clicking Windows+R) compile the code using javac HelloWorld.java and then run the class file using java HelloWorld, then paste the screenshot of the result in the word document and submit the same in the google forms.

Thanks.
